Subject Index

Volume 20, July–December 1992

A

Abstracts
Abstracts of the Council for High Blood Pressure Research 46th Annual Fall Conference and Scientific Sessions, 395

Acetylcholine
Captopril Improves Impaired Endothelium-Dependent Vasodilation in Hypertensive Patients, 175
Effects of L-Arginine on Forearm Vessels and Responses to Acetylcholine, 511
Vascular Responsiveness in Rats Resistant to Aldosterone-Salt Hypertension, 59

Adenosine
Contrasting Excitatory and Inhibitory Effects of Adenosine in Blood Pressure Regulation, 457

Adenosine triphosphatase, sodium-potassium
Na^+,K^+-Adenosine Triphosphatase Regulation in Hypertrophied Vascular Smooth Muscle Cells, 144

Adenyl cyclase
Desensitization of Adenylate Cyclase and Increase of $G_{i\alpha}$ in Cardiac Hypertrophy Due To Acquired Hypertension, 103

Adrenal glands
Regulation of Renin Gene Expression in Rat Adrenal Zona Glomerulosa Cells, 776

Adrenergic α-receptor agonists
Vasodilators Inhibit Acute α_1-Adrenergic Receptor–Induced Trophic Responses in the Vasculature, 809

Adrenergic receptors (See Receptors, adrenergic)

Adrenocorticotropic hormone
Regulation of Renin Gene Expression in Rat Adrenal Zona Glomerulosa Cells, 776

Aequorin
Regulation of Contraction and Relaxation in Arterial Smooth Muscle, 129

Age factors
Alterations in the Secretion of Atrial Natriuretic Factor in Atria From Aged Rats, 85
Pseudohypertension and the Measurement of Blood Pressure, 26
Silent Cerebral Infarction as a Form of Hypertensive Target Organ Damage in the Brain, 816

Albuminuria
Adverse Effect of the Calcium Channel Blocker Nitrendipine on Nephrosclerosis in Rats With Renovascular Hypertension, 233

Alcohol drinking
Acute Depressor Effect of Alcohol in Patients With Essential Hypertension, 219
Effects of Alcohol and Caloric Restrictions on Blood Pressure and Serum Lipids in Overweight Men, 533

Aldosterone
Aldosterone Enhances Angiotensin II Receptor Binding and Inositol Phosphate Responses, 67
Non-Modulation as an Intermediate Phenotype in Essential Hypertension, 788
The Renin System and Four Lines of Hypertension Research: Nephron Heterogeneity, the Calcium Connection, the Prorenin Vasodilator Limb, and Plasma Renin and Heart Attack, 267

Angioplasty, transluminal
Role of Angiotensin Subtype 2 Receptor in Neointima Formation After Vascular Injury, 737

Angiotensin converting enzyme (See Kininase II)

Angiotensin converting enzyme inhibitors
Adverse Effect of the Calcium Channel Blocker Nitrendipine on Nephrosclerosis in Rats With Renovascular Hypertension, 233
Captopril Improves Impaired Endothelium-Dependent Vasodilation in Hypertensive Patients, 175
Chronic Kinin Receptor Blockade Attenuates the Antihypertensive Effect of Ramipril, 74
Converting Enzyme Inhibition and Blood Pressure Reactivity to Psychological Stressors, 210
Distribution and Metabolism of Angiotensin I and II in the Blood Vessel Wall, 151
Effect of Early Onset Angiotensin Converting Enzyme Inhibition on Myocardial Capillaries, 478
Effects of Chronic Angiotensin Converting Enzyme Inhibition on Glucose Tolerance and Insulin Sensitivity in Essential Hypertension, 181
Role of Angiotensin Subtype 2 Receptor in Neointima Formation After Vascular Injury, 737
Trandolapril Inhibits Atherosclerosis in the Watanabe Heritable Hyperlipidemic Rabbit, 473

Angiotensin I
Angiotensin and Angiotensin Converting Enzyme Tissue Levels in Two-Kidney, One Clip Hypertensive Rats, 763
Distribution and Metabolism of Angiotensin I and II in the Blood Vessel Wall, 151

Angiotensin II
Adrenal and Circulating Renin-Angiotensin System in Stroke-Prone Hypertensive Rats, 280
Aldosterone Enhances Angiotensin II Receptor Binding and Inositol Phosphate Responses, 67
Angiotensin and Angiotensin Converting Enzyme Tissue Levels in Two-Kidney, One Clip Hypertensive Rats, 763
Angiotensin Dependence of Endothelium-Mediated Renal Hemodynamics, 643
Angiotensin II–Induced Protein Phosphorylation in the Hypertrophic Heart of the Dahl Rat, 633
Blocking Hypothalamic AT_1 Receptors Lowers Blood Pressure in Salt-Sensitive Rats, 755
Distribution and Metabolism of Angiotensin I and II in the Blood Vessel Wall, 151
Endothelin-1 Augments Pressor Response to Angiotensin II Infusion in Rats, 292
Increased Platelet Angiotensin II Receptor Number in Pregnancy-Induced Hypertension, 627
12-Lipoxygenase Products Modulate Calcium Signals in Vascular Smooth Muscle Cells, 138
Na^+,K^+-Adenosine Triphosphatase Regulation in Hypertrophied Vascular Smooth Muscle Cells, 144
Non-Modulation as an Intermediate Phenotype in Essential Hypertension, 788
Receptor-Mediated Effects of Angiotensin II on Growth of Vascular Smooth Muscle Cells From Spontaneously Hypertensive Rats, 746
Renin Expression in Renal Ablation, 483
Role of Angiotensin Subtype 2 Receptor in Neointima Formation After Vascular Injury, 737
Tissue Renin–Angiotensin Systems in Renal Hypertension, 158

Angiotensin receptors (See Receptors, angiotensin)

Angiotensinogen
Increase of Angiotensin Converting Enzyme Gene Expression in the Hypertensive Aorta, 168
Renin Expression in Renal Ablation, 483
Tissue Renin–Angiotensin Systems in Renal Hypertension, 158

Angiotensins
The Renin System and Four Lines of Hypertension Research: Nephron Heterogeneity, the Calcium Connection, the Prorenin Vasodilator Limb, and Plasma Renin and Heart Attack, 267

Anoxemia
Sympathetic Denervation Blocks Blood Pressure Elevation in Episodic Hypoxia, 612

Anoxia
Sympathetic Denervation Blocks Blood Pressure Elevation in Episodic Hypoxia, 612

Antibodies, monoclonal
Atrial Natriuretic Peptide Modulates Baroreceptor Reflex in Spontaneously Hypertensive Rat, 374
Salt Supplementation Does Not Alter the Pressor Effect of Blocking Atrial Natriuretic Peptide in Nucleus Tractus Solitarii, 242

Antidiuretic hormones (See Vasopressins)

Antihypertensive therapy
Chronic Kinin Receptor Blockade Attenuates the Antihypertensive Effect of Ramipril, 74
Discovery of a Well-Absorbed, Efficacious Renin Inhibitor, A-74273, 768

Aorta
Hypertension Induces Alternatively Spliced Forms of Fibronectin in Rat Aorta, 20
Increase of Angiotensin Converting Enzyme Gene Expression in the Hypertensive Aorta, 168
Vascular Responsiveness in Rats Resistant to Aldosterone-Salt Hypertension, 59

Aortic coarctation
Tissue Renin–Angiotensin Systems in Renal Hypertension, 158

Apnea
Sympathetic Denervation Blocks Blood Pressure Elevation in Episodic Hypoxia, 612

Arginine (See also Vasopressins)
Angiotensin Dependence of Endothelium-Mediated Renal Hemodynamics, 643
Effects of L-Arginine on Forearm Vessels and Responses to Acetylcholine, 511
Effects of OPC-21268, an Orally Effective Vasopressin V_1 Receptor Antagonist in Humans, 54

Arteries (See also Carotid arteries)
A Reduced Elastic Modulus of Vascular Wall Components in Hypertension? 7
Conduit Artery Compliance and Distensibility Are Not Necessarily Reduced in Hypertension, 1

Arterioles
Calcium Channel Activation in Arterioles From Genetically Hypertensive Rats, 380
Morphology of Renal Afferent Arterioles in Spontaneously Hypertensive Rats, 821
Skin Arteriolar Responses To Local Temperature Changes in Hypertensive Rats, 46

Atenolol
Effects of Antihypertensive Agents on Arterial Baroreceptor Reflexes in Conscious Rats, 701

Atherosclerosis
Pharmacology of Smooth Muscle Cell Replication, 713
Trandolapril Inhibits Atherosclerosis in the Watanabe Heritable Hyperlipidemic Rabbit, 473

Atrial natriuretic factor (See Natriuretic peptides, atrial)

Atrial natriuretic peptides (See Natriuretic peptides, atrial)

Atrophy
Brain Atrophy in Hypertension: A Volumetric Magnetic Resonance Imaging Study, 340

Autoradiography
Cerebral Glucose Utilization and Blood Flow in Adult Spontaneously Hypertensive Rats, 501

Autoregulation (See Homeostasis)

B

Baroreceptors (See Pressoreceptors)

Bay K 8644
Calcium Channel Activation in Arterioles From Genetically Hypertensive Rats, 380

Blood circulation
Cerebral Glucose Utilization and Blood Flow in Adult Spontaneously Hypertensive Rats, 501
Hyperdynamic Circulation and the Insulin Resistance Syndrome ("Syndrome X"), 802

Blood flow velocity
Resting and Maximal Forearm Skin Blood Flows are Reduced in Hypertension, 349

Blood pressure
Atrial Natriuretic Peptide Modulates Baroreceptor Reflex in Spontaneously Hypertensive Rat, 374
Brain Atrophy in Hypertension: A Volumetric Magnetic Resonance Imaging Study, 340
Cardiovascular and Plasma Catecholamine Responses to Exercise in Blacks and Whites, 542
Chronic Inhibition of Nitric Oxide Synthesis: A New Model of Arterial Hypertension, 298
Chronic Kinin Receptor Blockade Attenuates the Antihypertensive Effect of Ramipril, 74
Converting Enzyme Inhibition and Blood Pressure Reactivity to Psychological Stressors, 210
Dietary Sodium Chloride Increases Blood Pressure in Obese Zucker Rats, 389
Discovery of a Well-Absorbed, Efficacious Renin Inhibitor, A-74273, 768
Effect of Home Blood Pressure and Gender on Estimates of the Familial Aggregation of Blood Pressure: The Tecumseh Blood Pressure Study, 314
Effects of Alcohol and Caloric Restrictions on Blood Pressure and Serum Lipids in Overweight Men, 533
Effects of Chronic Angiotensin Converting Enzyme Inhibition on Glucose Tolerance and Insulin Sensitivity in Essential Hypertension, 181
Endothelin-1 Augments Pressor Response to Angiotensin II Infusion in Rats, 292
Ethnicity, Pressor Reactivity, and Children's Blood Pressure: Five Years of Observations, 327
Hematocrit, Blood Pressure, and Hypertension: The Gubbio Population Study, 319
Increased Systolic Pressure in Chronic Uremia: Role of Arterial Wave Reflections, 10
Job Strain and Ambulatory Work Blood Pressure in Healthy Young Men and Women, 214
Prognostic Significance of Exercise Blood Pressure and Heart Rate in Middle-aged Men, 333
Relation Between Blood Pressure and Stroke Mortality, 601
Salt Supplementation Does Not Alter the Pressor Effect of Blocking Atrial Natriuretic Peptide in Nucleus Tractus Solitarii, 242
Sympathetic Denervation Blocks Blood Pressure Elevation in Episodic Hypoxia, 612
Tissue Renin–Angiotensin Systems in Renal Hypertension, 158
Whole Body Autoregulation in Reduced Renal Mass Hypertension, 659

Blood pressure determination
Evaluation of Noninvasive Blood Pressure Monitoring Devices Spacelabs 90202 and 90207 Versus Resting and Ambulatory 24-Hour Intra-arterial Blood Pressure, 227
Pseudohypertension and the Measurement of Blood Pressure, 26

Blood pressure monitoring, ambulatory
Acute Depressor Effect of Alcohol in Patients With Essential Hypertension, 219
Evaluation of Noninvasive Blood Pressure Monitoring Devices Spacelabs 90202 and 90207 Versus Resting and Ambulatory 24-Hour Intra-arterial Blood Pressure, 227

Job Strain and Ambulatory Work Blood Pressure in Healthy Young Men and Women, 214
Twenty-four–Hour Blood Pressure Profiles in Normotensive Sons of Hypertensive Parents, 834
Variability Between Current Definitions of 'Normal' Ambulatory Blood Pressure: Implications in the Assessment of White Coat Hypertension, 555
Blood pressure monitors
Evaluation of Noninvasive Blood Pressure Monitoring Devices Spacelabs 90202 and 90207 Versus Resting and Ambulatory 24-Hour Intra-arterial Blood Pressure, 227
Blood pressure profiles, 24-hour
Evaluation of Noninvasive Blood Pressure Monitoring Devices Spacelabs 90202 and 90207 Versus Resting and Ambulatory 24-Hour Intra-arterial Blood Pressure, 227
Blood vessels
Vasodilators Inhibit Acute α_1-Adrenergic Receptor–Induced Trophic Responses in the Vasculature, 809
Blood viscosity
Increase in Erythrocyte Disaggregation Shear Stress in Hypertension, 247
Body mass index
Increased Waist/Hip Ratio, Metabolic Disturbances, and Family History of Hypertension, 563
Bradykinin
Chronic Kinin Receptor Blockade Attenuates the Antihypertensive Effect of Ramipril, 74
Brain
Atrial Natriuretic Peptide Modulates Baroreceptor Reflex in Spontaneously Hypertensive Rat, 374
Brain Atrophy in Hypertension: A Volumetric Magnetic Resonance Imaging Study, 340
Salt Supplementation Does Not Alter the Pressor Effect of Blocking Atrial Natriuretic Peptide in Nucleus Tractus Solitarii, 242
Brain stem
Contrasting Excitatory and Inhibitory Effects of Adenosine in Blood Pressure Regulation, 457
Brief reviews (See Review literature)
Bumetanide
Association of Red Blood Cell Sodium Leak With Blood Pressure in Recombinant Inbred Strains, 575

C

Calcium
12-Lipoxygenase Products Modulate Calcium Signals in Vascular Smooth Muscle Cells, 138
Oxygen Free Radicals and Cardiac Reperfusion Abnormalities, 118
Protein Kinase C of Smooth Muscle, 585
Regulation of Contraction and Relaxation in Arterial Smooth Muscle, 129
Calcium channel blockers
Adverse Effect of the Calcium Channel Blocker Nitrendipine on Nephrosclerosis in Rats With Renovascular Hypertension, 233
Calcium channels
Calcium Channel Activation in Arterioles From Genetically Hypertensive Rats, 380
Capillaries
Effect of Early Onset Angiotensin Converting Enzyme Inhibition on Myocardial Capillaries, 478
Captopril
Captopril Improves Impaired Endothelium-Dependent Vasodilation in Hypertensive Patients, 175
Converting Enzyme Inhibition and Blood Pressure Reactivity to Psychological Stressors, 210
Cardiac output
Cardiovascular and Plasma Catecholamine Responses to Exercise in Blacks and Whites, 542
Dietary Sodium Chloride Increases Blood Pressure in Obese Zucker Rats, 389
Impaired Renal Vascular Reactivity in Prehypertensive Dahl Salt-Sensitive Rats, 524
Whole Body Autoregulation in Reduced Renal Mass Hypertension, 659
Cardiomyopathy, hypertrophic
